## TESTIMONIALS FROM "EE" & "ER":

LaToshia Norwood has a unique ability to CONNECT with each person in the audience! Her courses make everyone feel like they have gained valuable insight that will prepare them for success in various business environments. Shell has received rave reviews for truly "partnering" with diverse MWBEs to create and prepare "business ready" suppliers for the rigorous cycles of corporate supply chains. L'Renee & Associates exemplifies what corporations look for in solution based entrepreneurs that know how to "Find Their Fit."

- Donovan Casanave, Shell Oil

The screenshot displays the website's layout. On the left, under 'OUR TRAINING COURSES', is the 'Project Management Crash Course' for \$299.00. The course description states it is a half-day or full-day session covering essential project management elements. Below the description are links for 'Request More Info', 'Already registered?', and 'Download Course Outline'. On the right, under 'TESTIMONIALS', there are three video thumbnails featuring Bruno L., Yen N., and Desmond B., each with their name and title below.

**Harold Booker Jr.**  
Project Manager at e-Builder

February 28, 2018, Harold was a client of LaToshia's

LaToshia is an amazing teacher. I took the 4 day boot camp with L'Renee and Associates this past fall. Prior to the course I had no formal project management training. However after the class I felt empowered to not only sit for the PMP but do my job better and interface with clients who did follow PMI. I highly recommend LaToshia for anyone looking to learn more about Project management. I still use the Beyoncé references from class.

**Rachel Stanford MEng, PMP, CRE**

Sustaining Engineering Project Manager at Schlumberger

April 11, 2017, Rachel Stanford was a client of LaToshia's

LaToshia is a fantastic instructor and I thoroughly enjoyed taking her PMP Boot Camp Prep Class. She utilized a variety of techniques and teaching methods to make the material understandable and really stick in my mind, when I had previously been struggling to get through the dry PMBOK textbook alone. I was able to successfully pass the PMP exam after taking her class by following the learning techniques she had taught me. She made the topics come to life in an interesting and informative way that I could relate back to my own experience. I would highly recommend this class to anyone interested in sitting for the PMP exam or learning more about Project Management.

**Bainu Baweja, PMP**  
Procurement Card Coordinator at Prairie View A&M University

April 3, 2017, Bainu was a client of LaToshia's

I recently passed my PMP certification on my first try !! How exciting is that !! I am very grateful to Latoshia Norwood, managing partner at L'Renee & Associates for offering such a great program to PMP hopeful's like myself. I took the PMP Boot Camp presented by her and managed to pass this test on my first try. I highly recommend anyone looking into PMP Certification to connect with her and her company because as you can see, IT IS THE RIGHT THING TO DO !! Great job LaToshia.

**Godwin Ndukwe Jr., MAcc, PMP**

Accounting Analyst II  
October 20, 2016, Godwin was a client of LaToshia's

I completed LaToshia Norwood PMP Boot Camp class offered by L'Renee & Associates in May of 2016. This 4 day course instilled the foundation and vital essence of being an efficient and effective project manager. In Aug of 2016, I became a PMP on my first attempt. LaToshia exemplified the utmost care and knowledge throughout the course, which directly played a primary factor to obtaining my PMP certification.

**Eduardo Campos**  
Connectivity Manager North and South America at Schlumberger

March 31, 2015, Eduardo was a client of LaToshia's

I took the training with LaToshia and after one month I became a PMP. Of course I studied a lot but I must say the material and training itself was awesome. It was so easy to understand and all seemed to have a flow and sequence that was hard to lose the path.

# Connecting the Dots

# L'Renee & Associates helps companies:

- Drive project success
- Reduce waste
- Increase productivity
- Bridge strategy and delivery
- Improve profitability
